Be The Bank Of The Future Bank Beyond The Walls

Increasingly, consumers are shifting their loyalties to institutions who can provide instant service with a seamless experience across channels. Consumers today want to choose how and when they interact with you. With Doxim Self-Service Account and Loan Origination, they can do just that.

We've completely re-imagined the self-service origination experience so that you can take prospects from click to customer in just under 5 minutes. From real-time ID verification and funding, to instant

adjudication and core banking integration – it's all digital. Doxim Self-Service Account and Loan Origination decreases time to fund from days to minutes, giving your customers the immediate gratification they crave.

At Doxim, we've gone beyond the form fill and designed a state-of-the-art solution for frictionless, digital-first journeys that significantly reduce digital abandonment rates and create the 'wow' moment for your customers.

A truly omnichannel end-to-end paperless solution that takes your prospects from click-to-customer in under 5 minutes

Dominate The Digital Origination Market With Doxim Self-Service Account & Loan Origination

Make Omni-Channel Banking A Reality

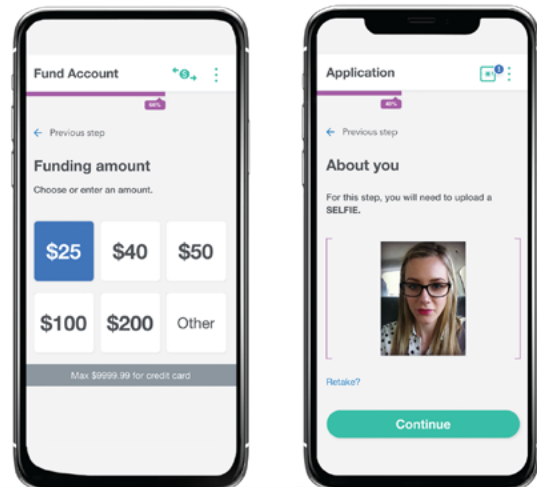

You can now offer your customers the convenience of banking 24/7, from the comfort of their homes, using the channel of their choice, whether it be online, mobile or in-branch. It doesn't just stop there, by pairing Doxim's Self-Service Origination with Doxim User-Assisted Account and Loan Origination, your FI can deliver a cross-channel consistent origination experience so customers have the flexibility to seamlessly switch between channels to complete an application.

Experience Accelerated Deposit & Loan Growth

Expand your footprint beyond physical branch locations and capture new market share. Doxim Self-Service Account and Loan Origination equips your acquisition team to engage, take action on and convert web-traffic leads immediately, resulting in shorter lead-to-revenue times. And if leads happen to abandon an application, not to worry. The integration with Doxim User-Assisted Account and Loan Origination will capture lead details in real-time and automatically save them as a prospect for immediate follow-up.

Ensure Compliance Without The Friction

Compliance does not mean sacrificing customer experience. Doxim's Self-Service Account and Loan Origination solutions are designed to give you maximum amount of fraud protection and the compliance without causing friction in the customer journey. Unlike many solutions in the marketplace which require manual intervention to ensure compliance and ID verification, Doxim's solution leverages state-of-the art technology to provide instant verification.

Experience The Power Of An All-In-One Origination Solution

Doxim Self-Service Account and Loan Origination is a module of Doxim Digital Origination, a powerful, integrated solution designed to meet all your origination needs through the whole customer journey.

Centralized Core Lending Services

Create a cost efficient and scalable base for growth, by having core lending services that are centralized and shareable.

Standardized Processes

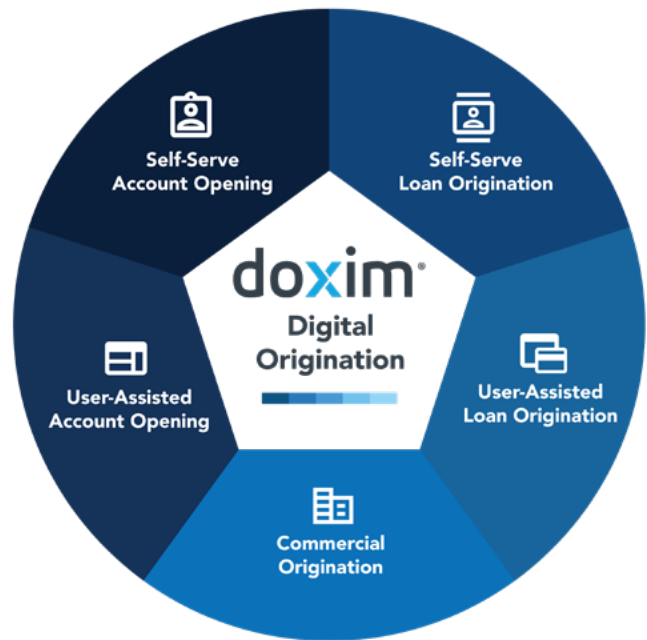

Centrally manage all origination using consistent business rules regardless of channels/input sources.

Shared Integrations

Leverage pre-built integrations to enterprise applications including CRM, ECM, and Core Banking.

360 View of the Consumer

Access member, household, holdings, loan information, and associated documents in one place for a true 360° view of the member.

Channel Continuity

Origination requests can continue across channels seamlessly, creating one single source of truth.

Better Lending Decisions

Readily available customer, business, and third-party data plus robust decision engine to enable better lending decisions.

Increased Loan Processing Capacity

Lower application processing time, which enables you to process a larger number of applications from the same headcount.

doxim[®]

Doxim is a leading provider of SaaS-based customer communications and engagement software for banks, credit unions, and wealth management firms. Doxim's Customer Communication Management Platform helps financial institutions transform their client experience, communicate effectively throughout the client lifecycle and improve cross-sell and upsell activities that drive increased wallet share. The platform addresses key digitization challenges, from automated account opening, through improved, personalized communications to anytime, anywhere content access, tailored to a client's channel preferences. This eliminates costly traditional paper-based, manual processes and enables cost-effective provision of an omni-channel experience that delights customers and improves their long-term loyalty.
