

Doxim Payment

*A Purpose-Built Solution
For Utilities*

A Single Provider, a Complete Solution

Doxim's payment solution gives you access to all the services and tools needed to optimize the entire customer experience. From composition, to bill design and presentment, to multi-channel payment and collections, to account management and communications, our complete solution guides you every step of the way.

A Frictionless Experience

Provide an integrated and seamless bill-to-payment experience that is sure to reduce days sales outstanding (DSO). With Doxim as your single vendor that supports the end-to-end billing and payment process, you can simplify implementation, create a seamless experience for customers and staff, and remove the operational burden of reconciliation – all while reducing your cost per transaction.

Omnichannel Delivery

Customers want options for when, where and how they pay their bills. More importantly, they want the flexibility to move seamlessly between payment channels and methods as their needs and preferences change. Our platform offers an omnichannel solution that enables your customers to choose from a variety of self-service and agent-assisted payment options, personalized according to their preferences.

Mobile-First Payment Interface

In addition to streamlining operations, Doxim Payment is designed to drive eAdoption so you can lower your cost per transaction and accelerate remittance. Our best-in-class, mobile first payment interface makes converting customers to digital channels a breeze and for those more reluctant, our industry experts will advise you on enrollment strategies that are sure to get results.

Advanced Payment Reporting & Reconciliation

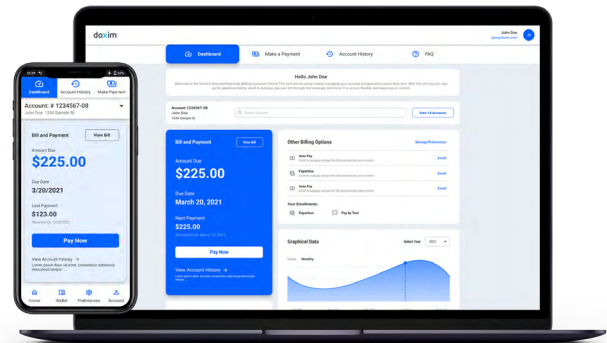

Doxim provides real-time posting and easy access to payment information. Detailed and conclusive reporting on the full payment lifecycle, from authorization through funding, ensures to-the-penny reconciliation, every time, saving both time and effort.

Convenient Fee-Based Model

Our configurable convenience fee-based model enables you to customize and personalize the payment experience for all your customer types. With Doxim, you only pass along costs to customers based on their preferences, enabling you to offer the more innovative payment options such as digital wallets to your tech savvy customers, without alienating the underbanked.

Highest Level of Security & Compliance

Securing customer data is of utmost importance to us at Doxim. Our tested, proven, and secure cloud-based solution holds the highest level of PCI and SOC 2 compliance so you can rest assured that your data is protected.
