

## Doxim CCM

### Doxim CCM Admin Portal (DAP) for Client Self Service

#### Empower Business Users with Control Over Key Aspects of Communications

Doxim experts manage your regulated customer communications without fail in our state-of-the-art production facilities - providing the quality, compliance and on-time delivery you need and expect. Through our self-serve client portal, we provide a gateway into that managed process, giving you control over key aspects of your communications for increased speed, agility, and insight.

The **Doxim CCM Admin Portal (DAP)** is a centralized access point to the Doxim CCM features, where your business users can:

- **Create, configure, review, and approve** transactional communications before composition and delivery
- **Manage templates and assets**, for quick market updates and to drive consistency across communications
- **Get a single view of the customer** for a streamlined response to support inquiries
- **Send urgent and impromptu communications**
- **Administer payments** and reconciliation (connecting to our biller portal for end-to-end processing)
- **Get reports and insights** on the status of documents and communications, customer engagement and more

#### Simplified Process & Control for Operations & Billing

The DAP delivers an easy-to-use interface allowing users in operations and billing to directly access key tools and reports:

- Manage document templates and configuration
- Manage omnichannel digital notifications
- Access dozens of operational reports on deliverability, status, and customer interactions with communications
- Manage exceptions, holding and reviewing to validate billing data accuracy before composition and delivery

#### Single View & Customer Engagement for CSRs

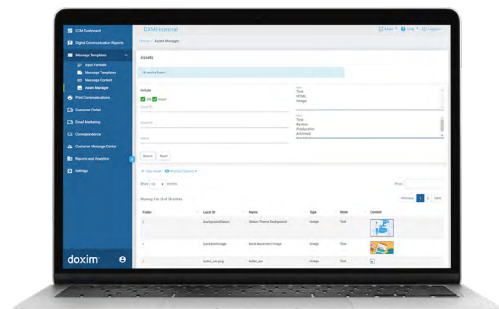

Providing a single source of truth for customer data is essential for delivering great customer experiences. Through the DAP, customer service representatives (CSRs) can improve the outcomes of customer inquiries with:

- A single, holistic view into the customer account, including engagement history and related documents
- Ability to view and administer the customer account profile and communications preferences
- Secure in-portal messaging for real-time, two-way communications and responses to customer inquiries

#### Marketing Solutions, Personalization, Asset Management & Engagement Insights for Marketers

With the DAP, marketers are empowered to directly create and deliver personalized messages and communications, without the help of IT. Doxim CCM also provides a multitude of touchpoints for marketers to deliver coordinated marketing campaigns. Marketers can:

- Add campaign content and personalized messages directly on statements, bills, and other regulated documents (onserts) or as inserts
- Include campaign content within the Customer Experience Portal (CXP)
- Use the fully featured Doxim Email Marketing solution to welcome, nurture and grow customer relationships
- Personalize communications for better customer experience and ROI on marketing
- Manage templates, assets, and content all in one place to ensure branding consistency
- Access reports and engagement analytics to understand campaign performance through different delivery channels
