

Doxim Email Marketing

Boost Customer Engagement with Personalized, Orchestrated Email Marketing Campaigns

Consumers today respond to communications that thoughtfully and proactively recommend products and services. Unfortunately, many organizations don't have the ability to make relevant recommendations in a timely fashion through the customers' preferred channels. With Doxim Email Marketing (EMM), you can analyze your customer information and create emails with targeted content that are sure to deliver higher response rates.

Personalized, Segmented Email Marketing

Evaluate your customers and match high-value segments of your database to targeted offers that get great results. Your customers will appreciate how you limit email marketing messages to products and services they could really use, delivered through the channel they prefer.

Product Highlights

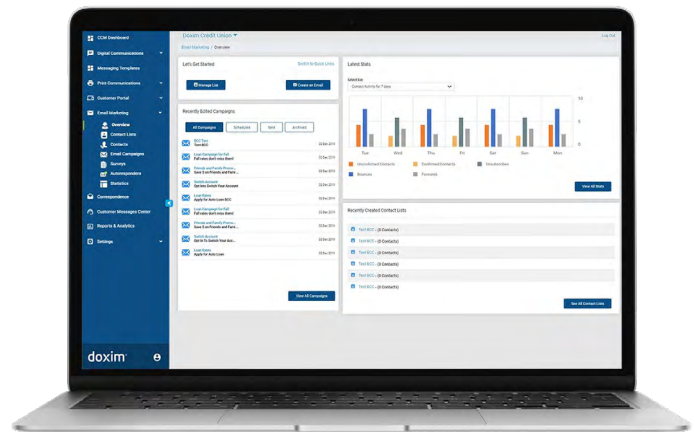

- Multi-tenant SaaS solution
- Completely browser-based; zero infrastructure required from your IT staff
- Modern capabilities for designing and delivering personalized, orchestrated email campaigns based on triggers or autoresponders
- Supported by Doxim expertise and "white glove" outsourced service

Evaluate and Fine-Tune your Campaigns

Market more intelligently by consistently reviewing and fine-tuning your campaigns. Monitor your multi-touch email campaign data in flight and make tweaks to improve results. When the promotion is over, analyze success rates and apply lessons learned to future email campaigns.

Email Marketing for Doxim CCM

Doxim EMM is available as an integrated component of the Doxim Customer Communications Management (CCM) platform or as a stand-alone solution. We offer a spectrum of support, from hourly consulting to our "white glove" outsourced service – in which Doxim experts manage and optimize email campaigns for you.

Doxim Email Marketing

Personalized, Orchestrated Email Marketing Campaigns

Included

Create and Update Email Marketing Campaigns
